As we celebrate ten years of the NCSC, we will be looking boldly towards the future. The past decade has seen remarkable advancements in cyber defence but the challenges we face are growing rapidly. At next year's conference, we will be considering the decade ahead. How can we work together to accelerate our cyber defences? How do we respond to a transforming digital landscape? And how do we ensure we are ready to manage future cyber incidents?

These are some of the most pressing and complex questions of our time, but I have every confidence that those joining us at the conference will meet the challenge head-on, and help shape a stronger, more secure digital decade.

Richard Horne,
Chief Executive Officer

WELCOME TO CYBERUK 2026

I am delighted to announce that next year the NCSC will mark its tenth anniversary year by returning to Glasgow for CYBERUK.

This city has long been a cradle of innovation, with its visionary inventors reshaping the world time and again. Today, that same spirit of imagination and creativity is driving a new wave of innovation in cyber.

With a growing reputation as a hub for digital excellence and a vibrant cyber ecosystem, Glasgow promises to be a wonderful setting to celebrate a decade of progress and collaboration. Home to the UK's oldest school of engineering and a thriving start-up scene, Glasgow is driving breakthroughs in quantum technology and is helping to shape the future of digital transformation.

Taking place from 21 to 23 April, I warmly invite all cyber security professionals, thought leaders, technical experts and industry pioneers to join us at our flagship conference.

CYBERUK is where the most influential voices in the industry come together to tackle the latest challenges in a series of inspiring and thought-provoking discussions.

Once again, the event will unite voices from across the UK and around the world – spanning government, industry, academia and beyond – to ensure a rich diversity of perspectives from across our community.

It is often said that cyber security is a team sport and CYBERUK truly embodies that collaborative spirit. It has grown into a world-class event thanks to the unwavering support of our valued sponsors and exhibitors, who step forward year after year. Their commitment—spanning industries and organisations—is the cornerstone of CYBERUK's continued success. I'm deeply grateful to those who have partnered with us in the past, and I invite you to consider joining us for CYBERUK 2026, as we proudly celebrate the NCSC's tenth anniversary.

This milestone event will bring the industry together to inspire, innovate and ignite change.

Richard Horne
CEO NCSC

Our theme of the year is

THE NEXT DECADE: ACCELERATING OUR CYBER DEFENCE_

Ten years ago, the NCSC was born from a simple and ambitious vision: to make the UK the safest place to live and work online. Over the past decade, we have built resilience, confronted fast evolving threats, and forged partnerships that strengthen our nation’s cyber defences. But the challenge is far from over.

In 2026, the question isn’t just whether we can defend against current cyber threats – it’s whether we can accelerate our entire approach fast enough to stay ahead of what’s coming next.

This year’s CYBERUK is both a celebration and a call to action for all.

In Glasgow, we will bring together leaders, practitioners, innovators and visionaries from across the cyber security ecosystem and beyond to address one critical question:

How will we accelerate our collective cyber defence for the decade ahead?

The cyber landscape of 2036 will be shaped by the decisions, technologies, and collaborations we make today. We must move faster, think smarter, and collaborate at a scale we have never seen before.

The CYBERUK 2026 programme will be full of opportunities to learn, explore, and engage with leading UK and international experts whether through keynotes, interviews, panels, interactive workshops or deep technical sessions.

Join us in celebrating the progress we have made together over the last decade and shaping the next, as we deliver our vision to keep the UK the safest place to live and work online.

Deadline for key content packages 7 October 2025

“This is an excellent event. It has the right balance between trade, networking, learning and development and thought leadership.”

2025 Delegate

PROGRAMME OVERVIEW_

For 2026 CYBERUK will feature concurrent tracks of content delegates can build their own programme from, and plenaries scheduled so all can attend. All the tracks cover a rich variety of themes and will feature a global line up of speakers and thought leaders from across Government, industry and academia. There are the four core content tracks (formerly known as streams) of **Resilience, Technology, Threat and Ecosystem**, they focus on policy, debate, challenge and general cyber security implications. The **Tech Talks** (formerly known as Technical Masterclasses) have evolved to be a track of short presentations focused on innovation and future technology or research. There are a total of 12 **Interactive Workshops** offering opportunities for Government and industry to host hands on, interactive session with delegates.

PLENARIES_

Five plenaries over the two days will bring together a range of UK and international cyber leaders from across government, industry and academia to discuss the event theme:
THE NEXT DECADE: ACCELERATING OUR CYBER DEFENCE_

RESILIENCE TRACK_

How can the UK strengthen its resilience to the cyber challenges of the next decade? This stream explores rapid-response frameworks, real-time threat sharing and the partnerships that can defend our most critical infrastructure - alongside the policy and legislative changes needed to enable defence at pace and scale. It aims to equip cyber defenders with the knowledge to guard against attacks or build resilience to respond and recover following one.

TECHNOLOGY TRACK_

Technology moves fast - our policy and practice must move faster. This stream examines innovations, governance and standards that can accelerate secure digital transformation. Delegates will explore proven solutions, the trade offs, and how to embed enduring security for the decade ahead.

THREAT TRACK_

Our adversaries are agile, adaptive and global. This track focuses on accelerating our ability to identify, analyse and anticipate threats from state actors and cybercriminals - turning intelligence into defensive advantage. Sessions will share insight into emerging risks and vulnerabilities from leading UK and international experts.

ECOSYSTEM TRACK_

Strong cyber defence depends on people, partnerships and trust. This track explores how we grow our future workforce, develop robust standards and assurance, and build a thriving, secure marketplace of services and innovators ready for tomorrow’s challenges.

INTERACTIVE WORKSHOPS_

As the cyber landscape shifts, solutions must be shaped in real time. Developed by government and industry sponsors, these sessions will explore live challenges, share strategies, and co develop approaches that strengthen our collective defence at pace.

TECH TALKS_

In person, technical talks for experienced practitioners. Led by experts in their field, these advanced briefings will provide insight into some of the latest thinking and research into our most pressing current and future technical challenges. The sessions will illuminate research, providing detailed analysis and actionable conclusions.

* While the context of the themes will remain, the titles are subject to change.

CYBERUK A DECADE OF GROWTH SINCE 2016_

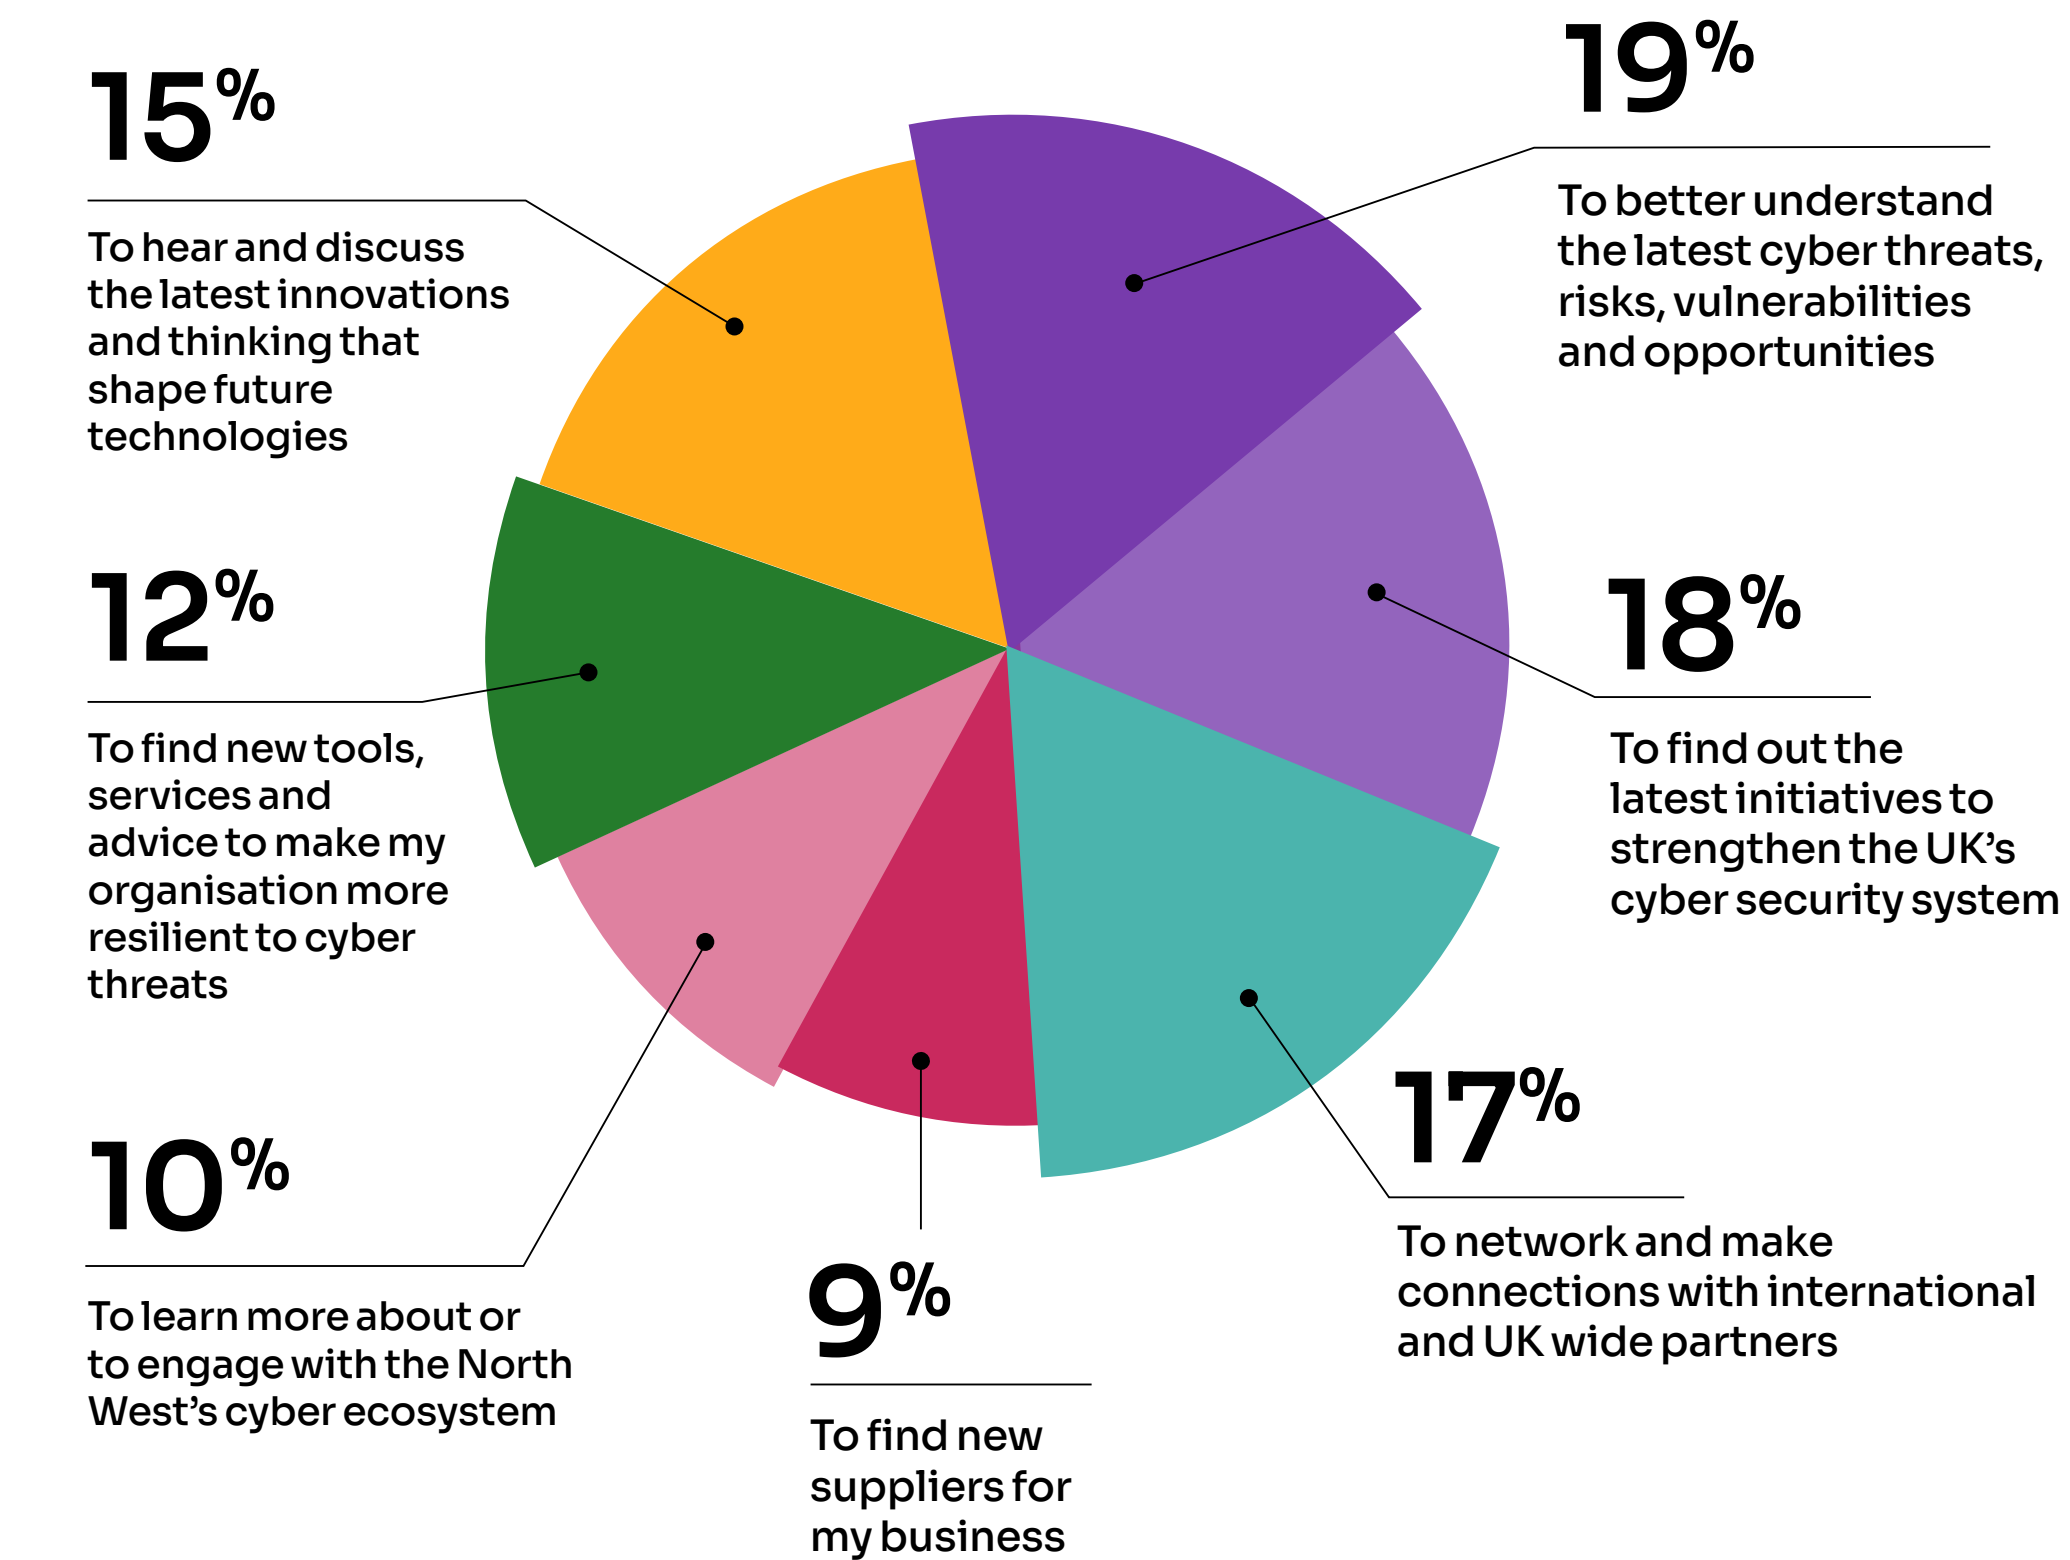

CYBERUK returns for its tenth year in April 2026 and aims to be even bigger and better than before.
In 2025 we saw:

WHY DELEGATES ATTENDED CYBERUK 2025

21
April

Day 0

- Early collection of delegate badges
- Welcome Drinks Reception

22
April

Day 1

- CYBERUK 2026 opening day
- Informal Networking Reception
- Leaders' Dinner

23
April

Day 2

- CYBERUK 2026 final day
- Women in Cyber Networking Breakfast

WHAT TO EXPECT AT CYBERUK 2026

CYBERUK 2026 is designed to inspire delegates to challenge ideas, share expertise and explore solutions that will shape the UK's cyber defence in the decade ahead.

Programme sessions will cover the spectrum – from high-level geopolitical and strategic reflections on future threats, to detailed, tactical insights into emerging technologies and operational best practice.

They will be delivered through a dynamic mix of content styles to aid varied learning approaches and offer a tailored delegate experience. You will find a mix of plenary sessions with keynotes and lively panel discussions, through to interactive workshops and technical presentations in our expanded 'Tech Talks' track, formerly known as our Technical Masterclasses.

A vibrant exhibition space will showcase services, products, and success stories from organisations of every size, while structured and informal networking opportunities will help delegates

connect, collaborate, and build lasting partnerships.

Speakers will include thought-leaders and expert practitioners from cyber security, technology, national security, business, and public services, both from the UK and around the globe. Their insights will help delegates understand threats, manage risks, seize innovation opportunities, and strengthen cyber resilience.

As a sponsor or exhibitor, you will be at the heart of the UK's most influential cyber security gathering – where ideas become action, collaborations take shape, and the next chapter of our national cyber security story is written.

Join us and be part of shaping, accelerating, and securing the UK's digital future.

“An exceptional opportunity to support the NCSC and meet those that we simply would not meet at any other show in the UK and Ireland”

Akamai, CYBERUK 2025
Lead Sponsor

BRINGING THE GLOBAL SECURITY COMMUNITY TOGETHER_

The Scottish Event Campus, Glasgow (SEC), will play host to over 2,500 in-person attendees across two days, with many more virtual delegates joining online.

Building on its reputation over the past ten years, CYBERUK 2026's programme is expected to attract a diverse group of delegates, including:

- + **Strategic leaders:** delegates with responsibility for cyber security from business, public services, academia, and research and innovation hubs
- + **Startups and scale-ups:** innovative product development companies from across the UK, including the North West, and leading international growth companies
- + **The cyber security community:** experts in digital security, procurement, and data technology at all levels from across the public sector and industry
- + **Global voices:** senior leaders from international institutions and corporations with global cyber security operations

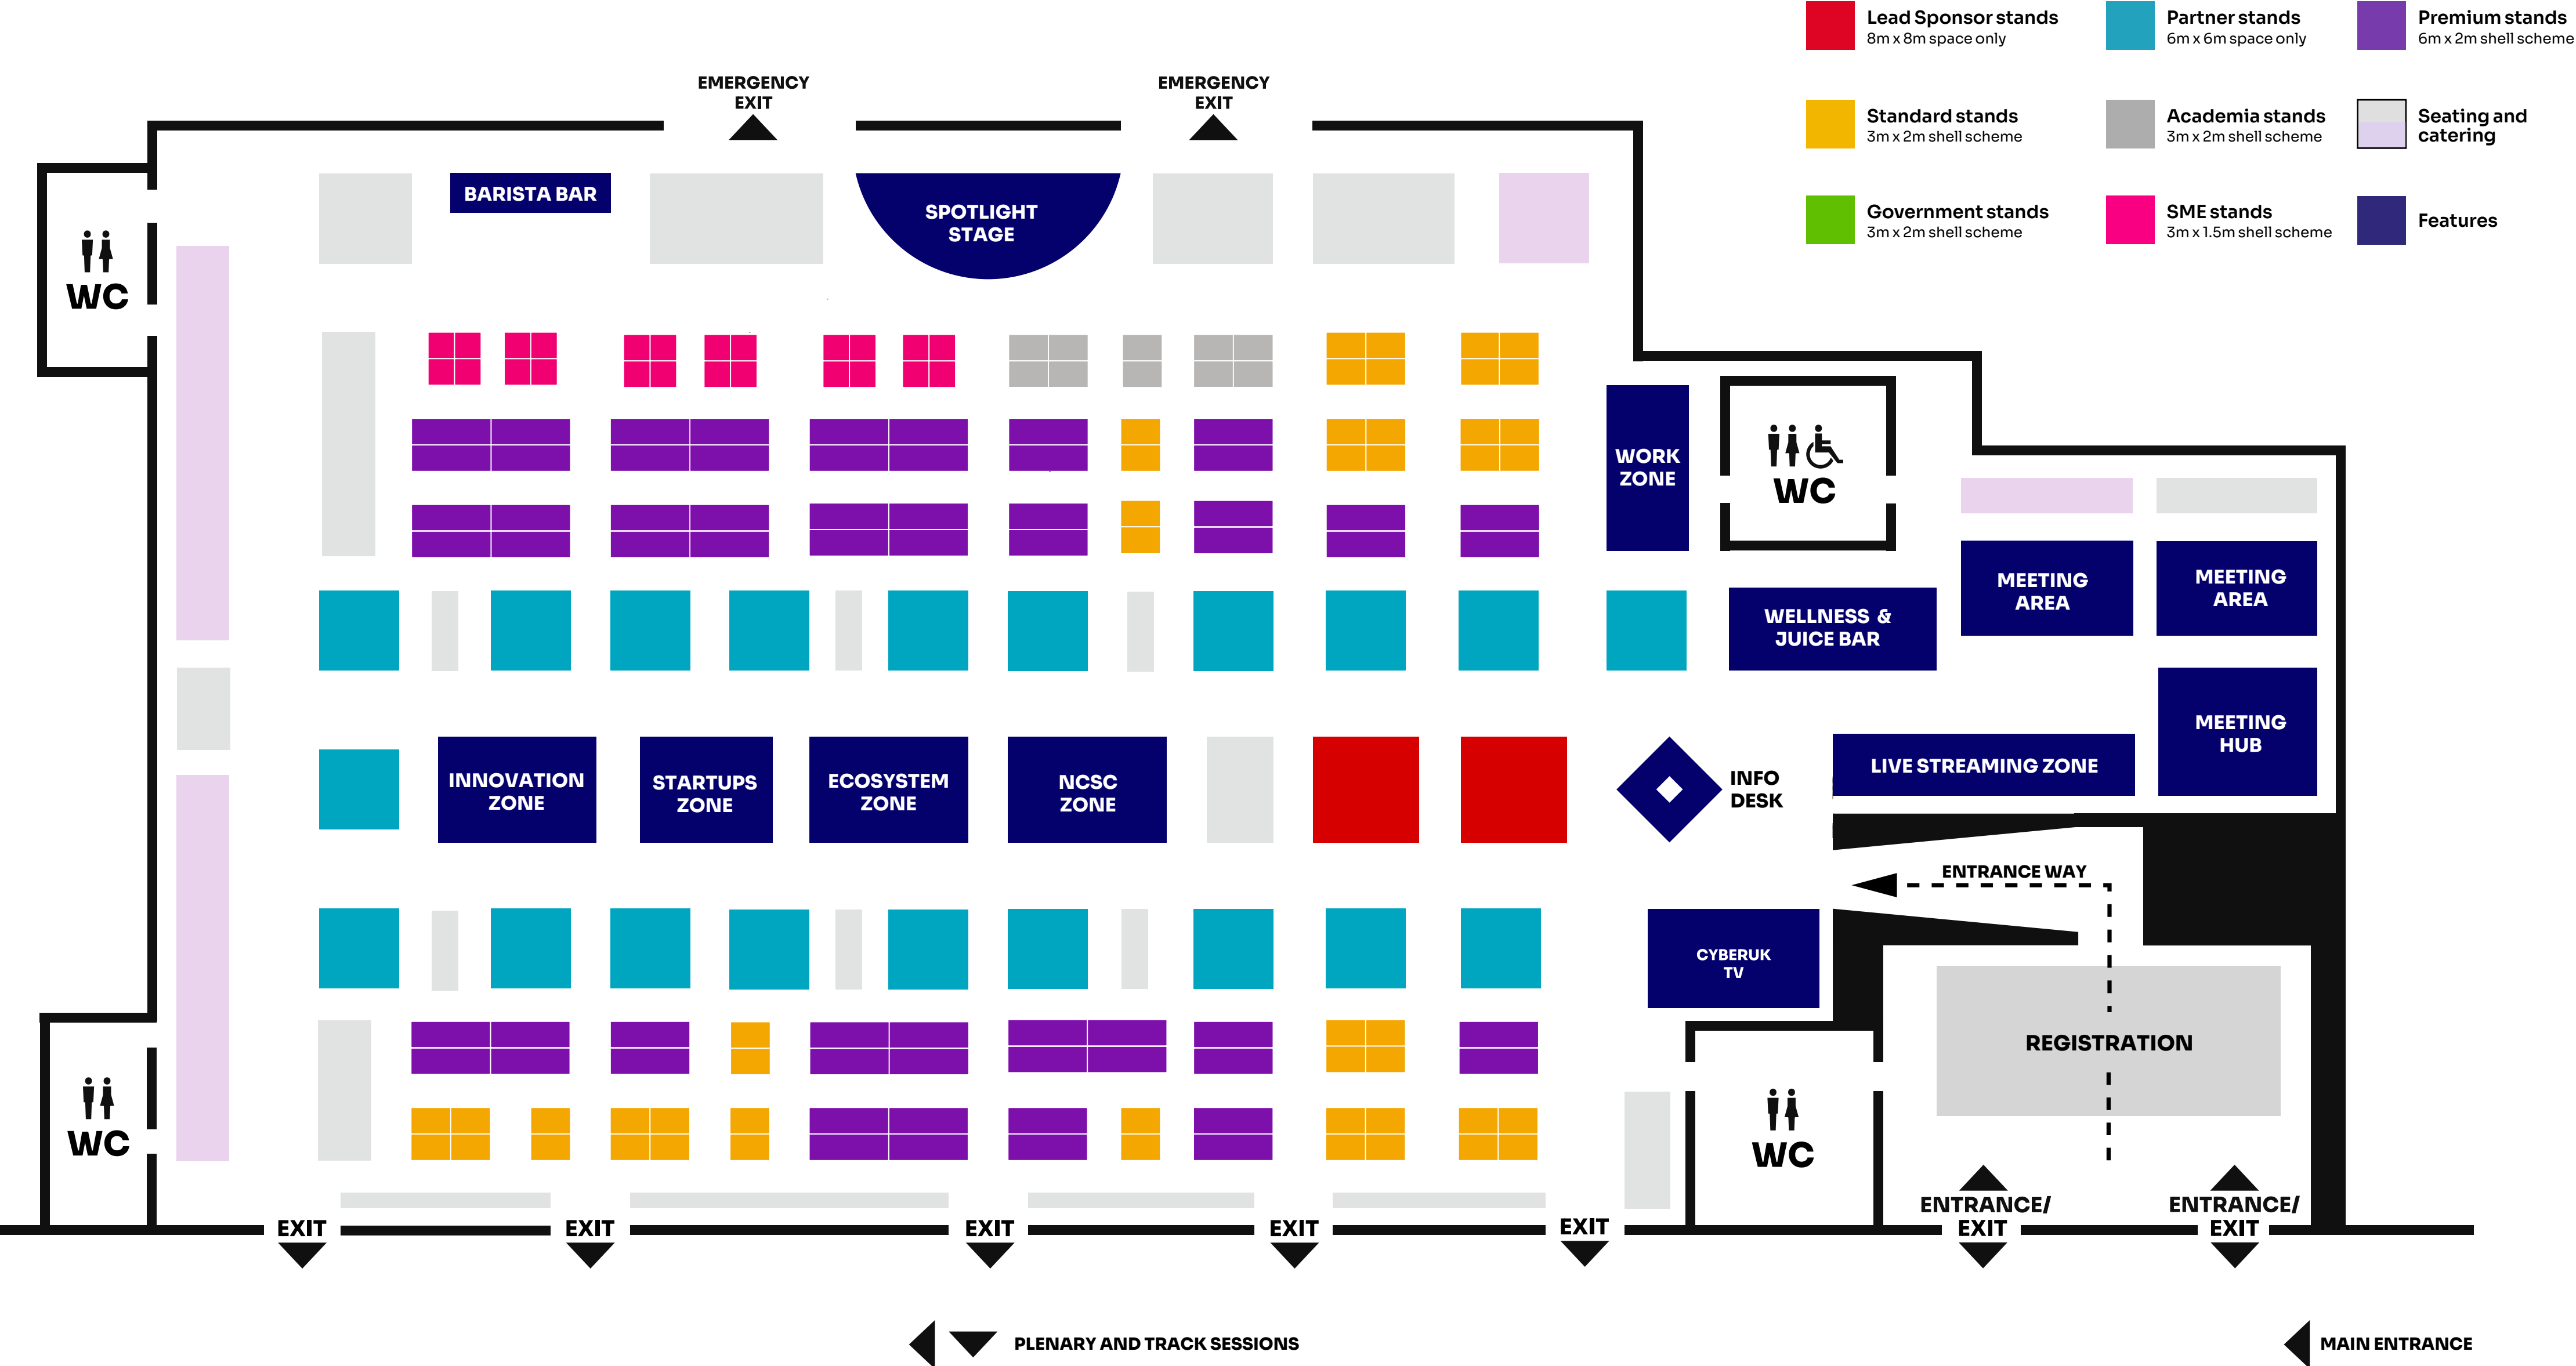

View our sponsorship and exhibitor opportunities and apply now!

WHY SHOULD I SPONSOR OR EXHIBIT?_

This is your chance to be part of the UK Government's leading cyber security event.

- + Meet and engage with **over 2,500** cyber security leaders and professionals face to face and connect with many more via our online opportunities.
- + CYBERUK 2026 offers your organisation **targeted in-person exposure** to high-level decision makers and technology professionals from Government, industry and academia, providing valuable **lead generation and networking opportunities**.
- + An **interactive experience** that matters – CYBERUK sponsors have made a significant contribution to the wider cyber security ecosystem, by helping to create meaningful and enduring connections with partners and key stakeholders from both the public and private sectors as a direct result of their involvement in the event.
- + CYBERUK attracts **high media interest** and social media engagement with coverage across regional, trade, national, and international television and radio broadcasts as well as press outlets including **Sky News, ITV News, The Times, Telegraph, Reuters, Bloomberg, Politico** and many more. The conversation continues far beyond the conference on our social media channels – and those of our speakers, delegates, sponsors, and viewers – contributing to high engagement levels.
- + Flexible exhibition spaces and opportunities mean we've secured a **range of brand opportunities** for every level of sponsor and exhibitor.

REGIONAL CYBER STARTUPS ZONE SPONSOR_

£26,000 +VAT

CYBERUK is looking for an industry partner to sponsor the Regional Cyber Startups Zone. The cyber security sector faces challenges that are too complex and important to be left to any single business, government department, or agency.

We need to take a whole-of-society, ecosystem-based approach. By choosing to be the Regional Cyber Startups Zone sponsor for 2026, you are demonstrating that your organisation actively promotes startups in the West Central Scotland and their ambitious work and creative ideas.

The zone will include 12 pod type stands, which you will fill with startup exhibitors specifically from the West Central Scotland area. With each startup paying just £499.00 + VAT to participate, you'll be supporting and enabling this important regional community to further develop and fully contribute to our future resilience.

EXHIBITING OPPORTUNITIES_

The cyber security industry exhibition is a key part of CYBERUK, enabling delegates to benefit from company expertise and to see, first-hand, the latest products and services on offer today.

CYBERUK 2026 offers exhibitors the chance to meet and engage with a broad cross section of stakeholder and suppliers within a safe and comfortable environment.

- + In 2025, CYBERUK hosted 175 sponsors and exhibitors, including startups, SMEs and industry leaders
- + 87% of delegates deemed the exhibition as a valuable part of their CYBERUK experience
- + Over 92% of sponsors and exhibitors stated that exhibiting at CYBERUK met or exceeded their expectations

Receive 6m x 6m metres of exhibition space in this space-only stand option.

You will have the flexibility to either design your own stand and showcase your company alone or create a ‘partner stand’ to demonstrate the collaborative solutions you’ve strategically delivered alongside others within the industry.

HOW TO APPLY_

By sponsoring CYBERUK 2026, you will be part of a collective effort to ensure the UK maximises the benefits of emerging technologies, and is sufficiently resilient to new and evolving threats. Join us to be part of this year's focus:

THE NEXT DECADE: ACCELERATING OUR CYBER DEFENCE

Online applications for the key content packages:

- + Lead Sponsor
- + Tech Talks Sponsor
- + Leaders' Dinner Sponsor
- + Networking Sponsor
- + Track Sponsors
- + Welcome Drinks Sponsor
- + Interactive Workshop Sponsor
- + Cyber Ecosystem Sponsor
- + Live Streaming Zone Sponsor
- + Women in Cyber Breakfast Sponsor

close on Wednesday 7 October 2025 at 5pm.

All other sponsorship and exhibition packages will remain open and will be allocated on a first come first served basis, so do not delay in submitting your application.

To be considered, please address the following criteria within your application:

- An understanding of, and the ability to demonstrate, your alignment with the priorities of the NCSC
- A strong statement of your own security position and practices, either through Cyber Essentials certification or otherwise
- Demonstration of relevant and innovative projects or initiatives within your business and particularly those associated with Glasgow, Scotland or the North West - our location - that support your sponsorship application

All applications will be scored in an open and fair way, based on the above criteria being met, by an NCSC panel. As always, the NCSC reserves the right not to offer packages or to offer different packages to applicants and, in particular, will take into account any potential reputational risk in the selection of its sponsor and exhibitor partners at CYBERUK.

Complete the application form online. The team welcome the opportunity to discuss alternative and / or bespoke packages.

A COMMITMENT TO ETHICAL BEHAVIOUR AND SUSTAINABLE IMPACT_

CYBERUK 2026 is committed to delivering an enjoyable and informative event, which:

- + Fosters a culture of inclusion
- + Encourages a diverse mix of viewpoints and backgrounds
- + Respects and strives for minimal impact on the environment

Our priority is for every attendee to feel safe and able to come to the event and create an environment of mutual respect. We are committed to fostering a space where everyone—regardless of background, identity, or ability—can participate fully and authentically.

As event organisers with sustainability at the heart of event delivery, we have also chosen a venue that has sustainability front of mind. Glasgow, Scotland have an in depth Sustainability Policy and are committed to ensuring sustainability is central to their business and mission to deliver outstanding events.

We are encouraging all of our delegates, sponsors and exhibitors to think and act sustainably. As valued partners, we welcome your support, as collaboration is key in achieving our most inclusive and sustainable event to date.
